Why Install A New Fence?

FRANK AI TORO,
OWNER OF
SAFEGUARD FENCE COMPANY

just opening the back door letting him do what he has to do, and then going back to sleep! Fences also keep other dogs away.

3 Privacy - Many houses today are fairly close together. A fenced in yard adds so much privacy to your backyard. A 6' privacy fence will turn your backyard into a whole separate outdoor living area.

4 Appearance - There are so many different options in fencing today; colors, sizes, ornaments. A vinyl fence to match or complement the siding, or the regal look of aluminum. A rustic or custom wood fence looks good with any décor. There are also many options and colors in chain link.

5 Home Value - The addition of fencing to your home's value is immeasurable. Some people won't even consider buying a home

without a fence, for all the reasons mentioned above.
